GONZALO RAMOS

WEB & SOFTWARE DEVELOPER

Buenos Aires, Argentina | gonzaloramos.dev@gmail.com | linkedin.com/in/ramosgonzalo/

I'm a passionate web and software developer with a strong drive for technology and continuous learning. I'm currently the co-founder of KIAD, and a Computer Engineering student at the University of Buenos Aires. I'm also pursuing a University Degree in Programming at the National Technological University.

FRONTEND	BACKEND	DATABASES	TOOLS & OTHERS
React *TailwindCSS*	*Node.js* *.NET*	*MySQL* *PostgreSQL*	*Git & GitHub* *Docker*
Next *TypeScript*	*C++* *Java* *Python*	*MongoDB*	*Postman* *Microsoft 365*

PROFESSIONAL EXPERIENCE

KIAD - Software Development Team   **Apr 2025 - Present**
Co-founder & CXO
KIAD is a software development startup specialized in creating high-quality websites, backend systems, and digital platforms for innovative businesses worldwide. I'm in charge of the customer experience, as well as the design, planning and visual frontend of projects.

PROJECTS

CRM for Freelancers | *React - TypeScript - TailwindCSS*   **Repository**
FreeManage is a CRM (Customer Relationship Management) designed specifically for freelancers who need to manage their clients, tasks, payments, and notes easily and efficiently.

Weather App | *React - JavaScript - CSS*   **Repository**
Weather App that displays real-time weather conditions based on the city you enter in the search bar, using the OpenWeather API and built with React.

Medical Clinic System | *C# - .NET*   **Repository**
Development of a multi-tier web system for medical clinic management using ASP.NET Web Forms (C#), SQL Server Repository, and ADO.NET as a final integration project for the Programming III course. It includes patient management, appointment scheduling, and user authentication.
